

Congestion and idle times lead to ever-increasing productivity losses in road transport, which in turn results in higher costs.

Since 2022, the congestion hours have been provided by Viasuisse ([viasuisse.ch](https://viasuisse.ch)) to the industry association ASTAG on a monthly basis. Each month, ASTAG publishes the corresponding congestion hours that are relevant for the invoicing in the following quarter ([congestion figures in hours \(astag.ch\)](https://astag.ch)).

### Congestion volume on the national road network in hours

### Congestion surcharge Q1 2025

CONGESTION INDEX
